

Our local community needs to be assured that K-love can be continued on FM radio. It is a family friendly radio station, which is the only one I can think of in the midst of so much trash on FM. We do not have a comparable radio station to K-Love if they are no longer able to transmit on FM. What other station is family friendly? What other station focuses on the positive and encouraging words and themes? K-love stands out from the other stations, most of which talk about cheating lovers, affairs, smut, drugs, and all around inappropriate music selections and DJ's for children, and adults. K-love provides a service important for the local community because it speaks the truth in love, provides a decent and uplifting listening environment where moms and dads aren't worried about monitoring what is said so their children aren't submitted to indecent topics. We need to keep K-Love available on FM. - Marie Lambert
